MARCH on the RNC!

MONDAY SEPTEMBER 1, 2008

Labor Day - 11 AM Minnesota State Capitol

On September 1st, tens of thousands will be coming from all over the US to protest at the Republican National Convention in St Paul. We have serious needs in this country and we are outraged that this government spends trillions of dollars to wage war in Iraq, while they slash spending for basic human needs at home. We are outraged that is us, poor and working folks that are being sent to kill and be killed in this rich man's war.

We'll be on WEST side of Capitol Mall. Look for the Yellow Balloons!

We invite low income people to join our Poor People's Contingent in the RNC Protest March on September 1st.
